

FROZEN ASSETS

The 2009 FLEX swimsuit issue goes out with the old and in with the cold

Women, bikinis and summer. Is there a more perfect combination? Probably not. But that didn't stop us from trying to find one for the 2009 FLEX swimsuit spectacular. Sure, we decided to stick with the old standbys — specifically women and bikinis — but this time, we opted to turn conventional wisdom on its head and bring eight of the hottest women in the fitness, figure and bikini ranks to the snowcapped mountains of Big Bear Lake, California, for a little fun in the snow. The result? Our coldest — and hottest — swimsuit issue of all time.
